WARRANTY - SAFETY PRECAUTIONS

The WINDMASTER parasol is guaranteed for a period of 2 years of use, invoice date.

This warranty covers manufacturing defects relating to the structure of the parasol, mast, ribs, pulley, and accessories, as well as the fabric, against the development abnormal mould growth and excessive discolouration.

This guarantee does not apply in the event of faulty use (on a daily basis or during storage), negligence, vandalism, improper installation, accidents, or exposure or to abnormal weather conditions.

To preserve the quality of your parasol, it is strongly recommended that you respect the maintenance conditions below :

As proof of our commitment to quality, the majority of our parts used in the manufacture of our parasols. (canvas, sails, etc.) can be removed and changed.

The measurements shown on our documents are average values and may vary slightly over the product.

If you have any questions about after-sales service please contact your sales representative Grosfillex.

Safety precautions and installation instructions

- | The instructions below are intended to make it easier to of the parasol, guaranteeing its longevity and ensuring user safety.
 - Before opening, the parasol pole must be held in place. in its base
 - When you first use it, in order to help with its opening, grasp the ribs at the ends and open them progressively at the same time.
 - Take the cord, pull and insert the locking pin in 1 of the 3 lower positions (6 positions in total). The upper holes will be used to adjust the tension of the canvas over time.
 - Once the pin is in place, the sunshade is locked in position. open position. Wind the cord into the hollow of the the pin intended for this purpose.
 - To close the parasol, keep the cord stretched, remove the pin and pull the cord loosely until until the armatures are completely closed.
 - It is advisable to use a protective cover.
- If there are few parasols on a terrace, a minimum distance of 20 cm between 2 umbrellas must be respected. The same applies between a wall and a parasol.

TOILE RECACRIL® MARINE - RECASENS SPAIN

Précautions d'usage

RECACRIL canvas is guaranteed for a period of 3 years but its longevity can exceed 5 years if the maintenance conditions below are respected.

When the canvas was made, slight white marks were left on the surface may appear. These are of no consequence on the performance of the fabric and will naturally fade away after a few weeks.

Maintenance advice

RECACRIL fabric is made from 100% fibre mass-coloured acrylic. It benefits from the Infinity which guarantees to RECACRIL fabrics a durable protection against the development of fungi, combined with high water repellency while providing solar protection.

NEVER use a hard bristle brush that would damage the film finish.

Regular maintenance is recommended to prevent the build-up of air pollution of all kinds.

Clean the fabric once a month using a simple spray water at low pressure and leave the parasol open to dry.

Periodic cleaning ensures better maintenance only every 2 or 3 years:

1. Brush off excess dust and dirt using a brush a soft bristle brush.
NEVER use a brush with hard bristles
2. Wet the fabric with a low-pressure jet of water
3. Apply neutral soapy water to the canvas (no more than 40°C). Allow to penetrate into the fabric
4. Rinse generously with water to remove soap from the skin in its entirety.
5. Allow to air dry. Never close the parasol if the canvas is not completely dry.
6. NEVER use cleaning products with a chemical base solvents or dissolvents that can damage the protective finish for the fabric.
7. Do not store any objects on the canvas, and avoid all falling objects on it.
8. In the event of unusual weather conditions (lightning, storms, etc.), close your parasol tightly and keep keep it in a safety place.
