## OUR CSR COMMITMENTS - FURNITURE

### PRODUCTS DESIGNED TO LAST

At Grosfillex, we design furniture built to last while minimizing its environmental impact:

- + **Responsible manufacturing:** production mainly based in France.
- + **Enhanced quality:** resistance to impacts, UV rays, weather conditions, and corrosion depending on materials. All our products are tested internally and by independent laboratories.
- + **Ease of use:** our products require little or no maintenance.
- + **Repairability:** availability of spare parts to extend product lifespan and reduce waste.

Site d'injection, La Plaine, Arrent, France.
